

Thermo Express Service

With our Thermo Express Service, the days of burners and messy glass pots are over. Fresh coffee is brewed directly into thermal servers. In addition to being less messy, thermal servers keep the coffee fresher for longer and are portable to safely take into conference rooms and other areas of your office. Plus, you'll reduce overall electricity consumption because you won't have a burner that stays on all day. So you'll get better coffee and keep your expenses low.

- **Equipment Cost:** FREE / No Charge Rental to qualified offices
- **Cost Per Cup:** average 10 – 12¢
- **Advantages:** lowest cost per cup of all of our services

Corporate Espresso Service

For a system that consistently produces the finest coffee, we offer an automatic brewing system that features an all-in-one coffee, espresso and cappuccino maker. These European-style machines grind and brew whole bean coffee at the touch of a button. So every cup of coffee comes out perfectly.

- **Equipment Cost:** Varies by size of office / usage
- **Cost Per Cup:** average 25¢
- **Advantages:** self-serve, true coffee house espresso quality, no waste, always fresh

Pod Express Service

One of the newest and most popular options is a “pod” coffee brewer. Each serving of coffee comes in a single “pod” in which the coffee is wrapped in filter paper. This allows you to keep a large variety of coffees and teas on hand to suit individual tastes without going to waste. Choose from Bunn or Juno brewers, which make one cup at a time fast and fresh with no pots to clean. Plus, everyone can enjoy their preferred flavor of coffee or tea.

- Equipment Cost: FREE / No Charge Rental to qualified offices
- Cost Per Cup: 39¢
- Advantages: self-serve, unlimited variety, no waste, always fresh

Pure Water Express Service

Let us show you how to **Go Green** and **Save Money** on your business water services with water coolers from CoolerSmart. The Forest City Coffee Company is the local distributor CoolerSmart. Offering a line of point of use water coolers that can provide an unlimited supply of fresh, great tasting water on demand, eliminating costly and burdensome 5-gallon bottles, CoolerSmart is the smart choice.

- Equipment Cost: \$31 per month
- Cost Per Cup: N/A
- Advantages: pure filtered water, small size (can fit on a counter top), no heavy bottles to store or lift, no running out or need to reorder supplies, less expensive than 1.5 bottles of water per week
